City of Senoia
Tree Committee

To whom it may concern,

It is my hope to join the Tree Commission of Senoia in order to serve my community and help preserve the beautiful environment that we are so fortunate to reside in.

“Senoia: The perfect setting. For life.” What better setting than a natural canopy within the city where residents can enjoy life giving trees and Senoia is kept beautiful. As a citizen here for the past 6 years, it is my goal to be of service to this community. When I was invited to learn more about the Tree Committee, to be honest, I had no idea of its existence. I had so many questions, and when I learned that this committee’s goal is to cultivate and encourage a healthy and sustainable community canopy within the city, and saw their hands on approach with educating the community with actions such as seedling distribution at community events such as Alive after 5, I knew I wanted to be a part of it.

I’d be honored to serve on this committee to keep Senoia’s natural environment a focus as this city continues to experience healthy growth.

Best,

A handwritten signature in black ink that reads "Brooke Baker". The signature is written in a cursive, flowing style.
