

Senoia Pizza Company Outside Seating Plan 05/12/2020

Our goal is to build a 9x22 feet seating area outside the entrance to our restaurant. We are using pavers for the base floor and metal fencing to surround the area; it will be covered with a waterproof sail like material that is multicolored This will be ADA acceptable.

Our goal is to provide seating for our customers to help with all that going on with this virus. Plus offer something that this restaurant never had before.

Our plan will add 12 to 14 more seats, in our packet you can see the seats and materials, we are using to accomplish this.

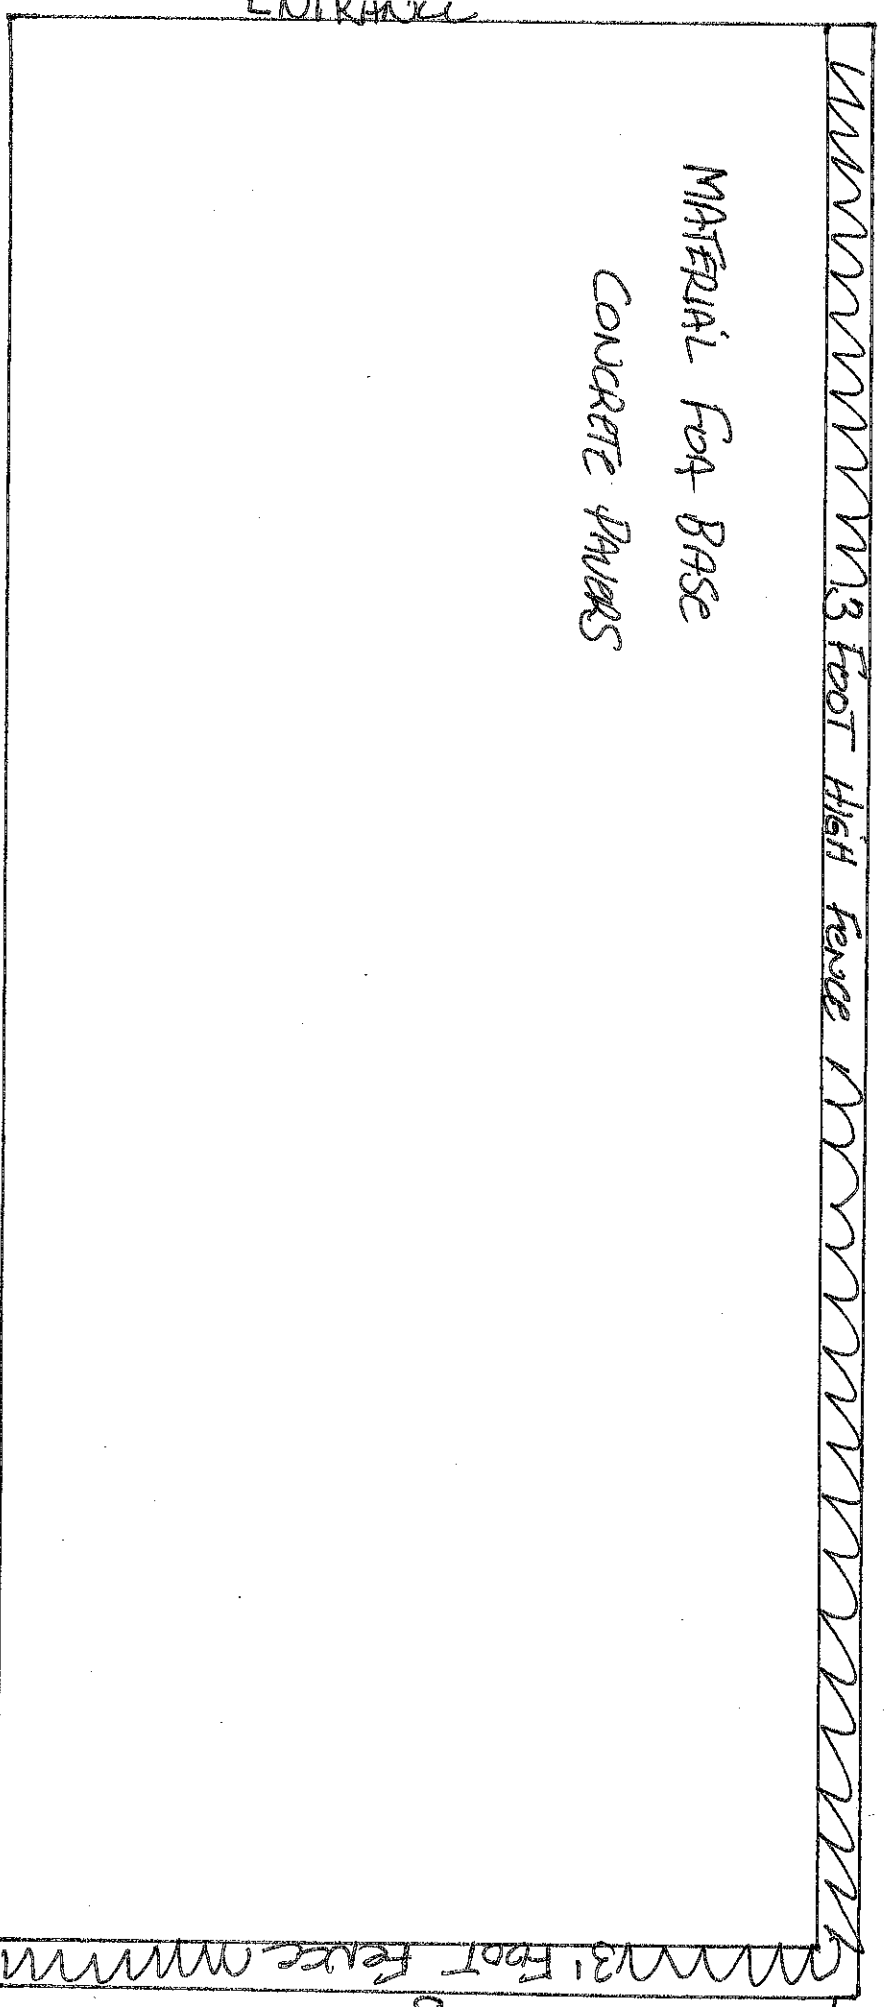

We hope you like our plans and we are excited about making Senoia Pizza Company a great fit in Senoia.

Thank you for your consideration,

A handwritten signature in black ink that reads "Stephen Richards". The signature is written in a cursive style with a large initial 'S'.
